

To whom it may concern

After having such a terrible experience, I am truly grateful for your help and having sponsored something so generous. It is a wonderful tablet and it will really help me in terms of my studies and browsing the Internet for school research. Although something unfortunate happened, it is people like you who are truly the ones to make a difference. I sincerely hope that your brand becomes more recognised and extremely successful, and that you continue to help people in the way you are doing now.

I appreciate this kind gesture from the bottom of my heart and believe that words truly cannot express my full gratitude.

God bless and thank you,

Suraksha Motilal
